The Chronicle sheet grants access to the following:

Tavern Brawler: You survived the punishing brawl in The Old Fang, and the experience has taught you a few brutally effective tricks. You can use this boon as a free action to become an exceptional urban warrior for 3 rounds. During this time, you do not provoke an attack of opportunity when performing combat maneuvers, and you gain the benefits of the Catch Off-Guard and Throw Anything feats. In addition, until this ability ends, your base attack bonus is equal to your character level for the purpose of calculating your Combat Maneuver Bonus, calculating your Combat Maneuver Defense, and making attacks with improvised weapons. When you use this boon, cross it off your Chronicle sheet.
