Oops. I screwed up. Self-audit here.

The GM sheet for 002 should **not** have been applied with full money, because it was applied to a level 1 character.

The amount awarded was 3711, when it should have been 1500.

So that means it's time to subtract 1211.

So I am: **removing the enchantment from both the chain short and the shield, keeping the masterwork quality on each.** That comes to a savings of 2000 gold. Which means that I will add 789 gold (2000-1211) to the 136 gold at the bottom of sheet 003, to give a current cash total of 925.

XP = 5

Prestige/Fame = 7/8

Cash = 925
