**Character Story:** You like your job. Both your jobs, in fact. Your human cover identity as an automotive mechanic is relaxing – you go into an almost meditative trance when you’re working on overhauling an engine – it’s sort of the antithesis of the state you’re in when Hell reminds you that you are a demon; focusing on figuring out how to solve the problem at hand becomes your whole world. But when Hell calls you to service and you’re on the job (with your co-mechanic and fellow collector, Angelina) tracking down a client and collecting the soul of some scumbag that sold it too cheap – well, that lets you live out the excitement of a good cop show on the tube!

**Wounds:**
